DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

The provisional rejection on the ground of nonstatutory obviousness-type double patenting over application 11/070,890 is withdrawn due to the abandonment of the '890 application.

Double Patenting

Claims 1, 3-7, 10, 11, 16, 22 and claim 25 remain rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over: claims 43 and 44 of U.S. Patent No. 6,340,595 and claims 7, 32, and 35 of U.S. Patent No. 6,413,776 for the reasons of record set forth in the Office action of 8/29/05.

Applicant's arguments filed 3/2/07 have been fully considered but they are not persuasive. Applicant has indicated that the rejections would be appealed, and have provided no new arguments in the submission.

The following are provisional obviousness-type double patenting rejections because the conflicting claims have not in fact been patented.

Claims 1, 3-7, 10-11, and 25 remain provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-3, 5-9, 13, 25, 27-29, and 37 (and their dependent claims) of copending Application No. **09/449,854**; over claims 1-10, 13, and 26-30 (and their dependent claims) of copending Application No. **11/271,368**; and over

Art Unit: 1633

claims 30-34 (and their dependent claims) of copending Application No. **11/450,038** for the reasons of record set forth in the Office action of 11/6/06.

Claims 1, 3-7, and 25 (and their dependent claims) remain provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim 11 (and its dependent claims) of copending Application No. **11/256,352**; over claims 1 and 7-9 (and their dependent claims) of copending Application No. **10/790,562**; over claims 42, 47, 50, 51, and 58-60 (and their dependent claims) of copending Application No. **11/026,518**; over claims 1-3, 13, and 17-19 (and their dependent claims) of copending Application No. **11/280,757**; over claims 1, 13, 14, 21, and 34 (and their dependent claims) of copending Application No. **11/259,245**; over claims 42 and 43 (and their dependent claims) of copending Application No. **11/331,861**; over claims 21 and 34 (and their dependent claims) of copending Application No. **11/544,490**; over claim 27 of copending Application No. **11/018,669**; over claims 17 and 20 of copending Application No. **11/140,418**; over claim 1 (and its dependent claims) of copending Application No. **11/146,332**; and over claims 15-18 (and their dependent claims) of copending Application No. **11/386,995** for the reasons of record set forth in the Office action of 11/6/06.

Applicant has acknowledged the provisional rejections and indicated that they will be addressed when the claims are otherwise in condition for allowance. Application **09/449,854** has been allowed, and is due to issue as U.S. 7,192,759 on March 20, 2007, at which time the rejection over this application will no longer be provisional.

The terminal disclaimer filed on 3/2/07 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Pat. No. 7,132,280 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Claims 1, 3-7, 10-11, and 25 are directed to an invention not patentably distinct from the specified claims of commonly assigned (or presumably commonly assigned) applications 09/449,854; 11/271,368; 11/450,038; 11/256,352; 10/237,007; 10/790,562; 11/026,518; 11/280,757; 11/259,245; 11/331,861; 11/544,490; 11/018,669; 11/140,418; 11/146,332; and 11/386,995 for the reasons indicated above. The U.S. Patent and Trademark Office normally will not institute an interference between applications or a patent and an application of common ownership (see MPEP Chapter 2300). These commonly assigned (or presumably commonly assigned) applications discussed above, would form the basis for a rejection of the noted claims under 35 U.S.C. 103(a) if the commonly assigned case qualifies as prior art under 35 U.S.C. 102(e), (f) or (g) and the conflicting inventions were not commonly owned at the time the invention in this application was made. In order for the examiner to resolve this issue, the assignee can, under 35 U.S.C. 103(c) and 37 CFR 1.78(c), either show that the conflicting inventions were commonly owned at the time the invention in this application was made, or name the prior inventor of the conflicting subject matter.

A showing that the inventions were commonly owned at the time the invention in this application was made will preclude a rejection under 35 U.S.C. 103(a) based upon the commonly assigned case as a reference under 35 U.S.C. 102(f) or (g), or 35 U.S.C. 102(e) for applications pending on or after December 10, 2004.

Art Unit: 1633

Applicant has made no showing as to whether these applications were or were not commonly owned at the time the instant invention was made.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
